Assignment of New Non-Executive Directors

The **Board of Directors and the General Assembly of IMCI+ Group Intl. GmbH, Switzerland**, is honored to announce the appointment of the following Directors (non-Executive Directors). This appointment is a natural consequence of the strategic cooperation signed with USGBF (United States Global Business Forum) and STVC.

Furthermore, it marks a significant step in the new Director structure of IMCI+ Group Intl. GmbH for the vision 2025, as part of the ongoing process to capitalize it with over 1 billion USD, thereby establishing it as a global financial conglomerate and advisory group. This follows the achievement of 40 million CHF in financial assets in 2023, along with a portfolio comprising over 130 transactions valued at 150 billion USD. IMCI+ has also expanded its coverage and presence to over 60 countries, boasting approximately 150 IMCI+ Alliance Members.

Dr Jacques Ludik, South Africa

Stanley Rorke, STVC (Sustainable Technology Venture Capital) South Africa

Stanley Rorke is the owner of a number of businesses, across a range of industries. After over 3 decades of experience in finance, property development, property management and pitching for funding, he is a professional fundraiser for corporates and individuals looking to scale up their business.

Stanley has successfully negotiated and pitched over US\$1.6bn in merger, acquisition, property development and scale-up initiatives, across a variety of industries. He has also scaled up, in an executive role, 5 businesses to over 10x growth within 5 years.

Dedicated to wealth creation, Stanley is passionate about applying his skill set to the negotiation of funding structures for corporations, family businesses, entrepreneurs and scale-up initiatives. He offers his services in a variety of modalities from consulting, funding process management, business plan and financial modeling to online programs. Each aimed at empowering people to obtain funding, and most importantly, ensuring maximum returns of investment.

Stanley graduated in 2003 with an MBA (cum laude), and achieved the most consistent achiever award. Stanley also, holds university qualifications in finance and psychology. He has been a lifelong learner, with a number of accredited qualifications in Real Estate, and holds a Master Practitioner in Real Estate (MPRE) qualification.

Kevin Kishor Kaul, USGBF, USA

Kevin Kishor Kaul is the founder and Chairman of USGBF and a very successful entrepreneur and visionary Leader. He was a candidate for the Governor position of the State of California. The **US-Global Business Forum (USGBF)** is an influential group of business, government, and community leaders dedicated to promoting bilateral trade between North America and other countries, improving business climates, and fostering mutually beneficial relationships leading to impactful business deals.

Both organizations share a common vision of making a difference. Following the Global Summit 2023 in Dubai, the chairmen and board of directors of both entities have concluded that evolving their existing relationship into a joint venture/strategic cooperation is the logical step forward.
